

## Summer Research Experience @TER Terrestrial Ecosystem Research

TER, the division of Terrestrial Ecosystem Research at the Centre for Microbiology and Environmental Systems Science offers a **Summer Research Experience** for up to 4 trainees.

### **What can you expect?**

- Unique research experience, by participating in a research project with one of the researchers at TER, as a first step in your research career;
- Broaden your practical and theoretical background by working in a competitive and international research environment;
- Get hands-on training in state-of-the-art techniques and scientific instruments;
- Become a member of the scientific team at TER and join the publication of the results.

### **Who should apply?**

- You are a Master's student in Ecology and Ecosystems, Molecular Microbiology and Microbial Ecology, Environmental Sciences, or similar;
- You would like explore one of the research areas at TER ([www.ecosystem-science.at](http://www.ecosystem-science.at))
- You are fluent in English and are able to work independently and in a team;
- You are a student at an Austrian university.

### **What do we provide?**

- Up to 4 internships in 2019;
- A compensation (minor employment) with a total net income of approximately 660 €;
- Full integration in TER and full access to all necessary facilities and resources.

### **How to apply?**

Please send the following information in a single PDF file to: [ter@ecosystem-science.at](mailto:ter@ecosystem-science.at)

- A CV including your full contact details (telephone, email, skype);
- A short motivation letter (0.5 - 1 page maximum) detailing the reasons for applying for the internship and your expectations for the placement;
- Your availability for a 6-week period from July to September 2019;

Deadline for the application is **June 15<sup>th</sup>, 2019**. You should indicate how you can be contacted during the last two weeks of June. You will be informed about the outcome of your application by June 24<sup>th</sup>, 2019 at the latest.
